Mobile: +91-6280326280

SKILLS

- **Languages:** Python, JavaScript, C, C ++
- **Technologies:** Machine Learning, AI, HTML, CSS, Node.js, React, Tailwind CSS, Express.js, Pytorch
- **Databases/Tools:** MySQL, MongoDB, Git, GitHub, Figma
- **Soft Skills:** Problem solving, Leadership, Team collaboration, Time management, Adaptability

PROJECTS

Ecocheck | GitHub

Dec 2025 - Jan 2026

- Engineered an automated eco-efficiency and code quality analysis tool to identify performance bottlenacks, reduce computational resource consumption, and enforce green software engineering practices.
- Implemented static code parsing routines and automated metric checks across client-server workflows to analyze runtime overhead, memory utilization patterns, and redundant asset loading.
- Accelerated code execution efficiency by optimizing resource-heavy operations and provided actionable insights to lower carbon footprint across target web applications.
- **Tech Stack:** Node.js, Express.js, Javascript, React.js, Tailwind CSS, REST APIs, Git

Natya-AI | GitHub

- Designed and developed Natya-AI, a chat-first movie and TV recommendation application leveraging conversational AI to provide personalized content suggestions.
- Enabled interactive user flows where individuals can query based on mood, genre, actors, runtime, and language to receive tailored recommendations with clear rationale.
- Engineered the backend using Python for recommendation logic and API services, while crafting an intuitive chat-based interface with JavaScript.
- Focused on experimentation and rapid prototyping to deliver seamless and engaging conversational experiences for media discovery.
- **Tech Stack:** Python, JavaScript, AI, CSS

Taskify | GitHub

- Developed a lightweight, gamified task planner web application that enables users to create, edit, and track daily tasks.
- Implemented a points system to incentivize task completion, allowing users to redeem points for "chill time" to build consistent progress.
- Designed a minimal, mobile-friendly user interface using plain HTML, CSS, and JavaScript.
- **Tech Stack:** HTML, CSS, JavaScript

CERTIFICATES

- Supervised Machine Learning: Regression and Classification | [Coursera](#) Aug 2025
- Computer Programming | [NeoColab](#) Sep 2024
- Time Management | [Linkedin](#)
- Worldquant Brain Gold
- RCS CTF Achievement May 2024

ACHIEVEMENTS

- Solved more than **300** programming problems on online coding platforms during regular practice and learning.
- Achieved Gold Level on Worldquant Brain Quantitative Platform.
- Ranked **#2** in a college hackathon CTF with Cybersecurity skills.

EDUCATION

Lovely Professional University

Bachelor of Technology - Computer Science and Engineering; **CGPA: 8.51**

Phagwara, Punjab

Aug 2025 - Present

Innocent Hearts School

Secondary Education; **Percentage: 87%**

Jalandhar, Punjab

May 2022 - Mar 2023

Innocent Hearts School

Higher Secondary Education; **Percentage: 80%**

Jalandhar, Punjab

May 2023- May 2025
